This is the general format I have decided on for the integrated MOA section. I am guessing the tables will be compressed some (once I decide on a format and insert the rest of the pertinent information), and I will probably draft a couple of pages of text related to each figure... all told, it will likely be 10 pages or thereabouts at completion.

The data isn't final yet, but please comment on the figures/ evidence. I am pretty happy with the way the figures turned out, even if they may not be factually perfect.
